

# INTELLECTUAL PROPERTY FOR THE NON IP LAWYER

Wednesday, October 28, 2015

8:30 am – 12:00 pm

During this 3.5 hour program, our presenters will provide basic instruction and discussion of intellectual property issues that many business, litigation, employment and other non-Intellectual Property lawyers don't know about but should. This program will include the need-to-know, substantive basics of each topic, including what is protectable, creation, ownership, transfer, infringement and remedies. The program will also cover recent and notable Fourth Circuit and U.S. Supreme Court opinions on these topics.

The format will be an informal, open discussion with ample opportunity to ask questions.

- Copyrights
